**Thousands of Dollars in Injury
Settlements for My Clients**

If you have been injured remember this:

it is not just about you

it's also about your family.

Do not gamble on an attorney. Accidents do happen but choosing an attorney should not be an accident. Choose a lawyer who has the experience, the expertise, the sheer competence, the knowledge, the skill and, above all, the fighting spirit – one who not only knows the law, but also will believe in you and your claim – to vigorously and enthusiastically pursue your claim. Select a lawyer who understands how insurance companies investigate, process, litigate and/or ultimately settle personal injury claims. If you want to have brain surgery, my goodness, go to a brain surgeon!

Remember: "I Champion The Cause Of The Injured"

**IF I DO NOT RECOVER MONEY
FOR YOU AND YOUR FAMILY,
I DO NOT GET PAID, PERIOD.**

Even a simple accident such as a rear-end car collision can present very complex legal problems. So call the Law Offices of John C. Duru to ascertain what steps to take to protect your rights.

There are 4.5 million new whiplash injuries in the United States every year. Whiplash injuries from auto accidents can considerably disrupt one's daily routine. If left untreated, could create other health problems. See your physician immediately for diagnosis and retain a Personal Injury Lawyer to preserve your legal rights.

Listen up, please, insurance companies will not pay the full value of your claim – your pain and suffering, your inconvenience, your family's loss of your society and companionship, your income loss, your loss of consortium – unless their hands are forced. They have an army of adjusters, investigators, appraisers and lawyers who will leave no stone unturned to deny your claim and, if they cannot deny your claim, to reduce or diminish the value of your claim.

ENGAGE THEM AND DO BATTLE WITH THEM

YOU AND YOUR FAMILY ARE ENTITLED.

If you have not been in an accident or injured:

This is the time to pull out your auto insurance declaration sheet (i.e., DEC. PAGE) and review it and know exactly what is covered and by how much. Why pay that insurance premium month after month, year in year out, when you do not know for sure what is covered and by how much.

**Ask your insurance agent the
following questions:**

1. How much is my Personal Injury Protection coverage? (PIP—covers income loss and medical bills and cost of household help, etc.)
2. How much is my bodily injury liability coverage?
3. How much is my property damage coverage?
4. Do I have car rental coverage?
5. How much is my "uninsured and underinsured" motorist coverage?

Do yourself and your family (and even your employer!) a big favor by calling the Law Offices of John C. Duru for a free review of your Auto Insurance Coverage before it is too late!

AND, REPEAT AFTER ME:

**WHATEVER I DO, I WILL NOT LET MY
AUTO INSURANCE POLICY LAPSE!
I WILL MAKE SURE I PAY MY PREMIUM TIMELY.**

**WHATEVER I DO, I WILL NOT WAIVE MY RIGHT
TO SUE, I DO NOT CARE HOW MUCH THEY SAY
I WILL SAVE UPFRONT.**

**WHATEVER I DO, I WILL NOT WAIVE MY PERSONAL
INJURY PROTECTION (PIP) COVERAGE.
(NOW I KNOW THAT EVEN IF I AM AT FAULT IN
AN ACCIDENT AND IF I HAVE PIP COVERAGE,
MY MEDICAL BILLS AND INCOME LOSS WILL BE
PAID AND THAT IS WHY IT IS CALLED
NO-FAULT COVERAGE.)**

Each year millions of injuries are the result of automobile accidents. Statistics show that 93% of all crashes are due to human error. If you have been injured by someone's error or negligence, or if you have been injured in a car accident, call The Law Offices of John C. Duru for prompt legal help. Do not sleep on your rights. Preserve your legal right early or forever lose it!
